**Discussion:** The Purchasing Department received a requisition over \$25,000 from the Planning Director requesting to fund the planting of the recently installed Old Savannah Highway medians. The Town of Port Royal has offered to maintain the landscaping after installation. This project includes the cost of site preparation/grade; a four-month hand-watering program to facilitate plant establishment; plants and installation of plants; pine straw mulch. Since proper installation and maintenance needs are heavily linked, the County would prefer the Town contract for the installation of the plants on the medians. The County agrees to provide up to \$61,884 for the site preparation/grade; a four-month hand-watering program to facilitate plant establishment; plants and installation of plants; and provision of pine straw mulch. Minutes - Finance Committee May 20, 2013 Page 4 of 4

NOTAM to pilots canceling RNAV and VOR (circling) procedures at the Hilton Head Airport for nighttime instrument procedures. This action is a result of a review conducted by the FAA Flight Office Procedures Office. Their findings indicate that there are obstructions at the Hilton Head Island Airport (trees and one tower) which penetrate the Visibility 20:1 surface. The result could be nighttime closure of the Hilton Head Airport especially in poor weather conditions. A waiver to this notice was requested but quickly denied. He has contacted Mr. Steve Riley, Hilton Head Island Town Manager, and indicated that the County may be requesting the Town's cooperation as it proceeds with immediate mitigation procedures to remove the penetrations and restore FAA flight guidance standards.

#### **PUBLIC COMMENT**

The Chairman recognized Mr. Walter Burnside, who is the CenturyLink regional manager for the States of South Carolina and Georgia representing. Mr. Burnside is before Council to discuss a proposal that CenturyLink has put in front of the County E911 Group as well as to explain why we feel that that is a great solution for the County. Based on the requirements needed for the Cassidian product and the County E911 redundant fiber network, we have proposed a one-gigabit Metro Ethernet fiber network at a significant cost savings from what our competitor has proposed. With this proposal, it is a full redundant network. It is fully managed 24/7. We monitor it. We watch it. We handle any issues that might arise. Mr. Burnside circulated a document that lists CenturyLink proposal, what our competitor has proposed, and a description of the differences between those two proposals. He is available to answer questions or to have another meeting to discuss it and delve further into it. He would like consideration from Council knowing that there have been issues in the past. We have a new team in place, and we would like the opportunity to rectify past issues.

Mr. Gary Kubic, County Administrator, presented a Monthly Budget Summary for the period March 31, 2013.

# Administration Assessment of Proposed Intersectional Realignment of Hampton Parkway to US Highway 278

Mr. Gary Kubic, County Administrator, reported that at the February 22, 2013 meeting of the Public Facilities Committee, members had asked Administration to assess the opportunity to relocate the current Hampton Parkway / US Highway 278 intersection to Island West Park Road, which serves Stokes Toyota, Enmark and Goodwill.

As result of this process, it is Administration's recommendation that despite the merits associated with the relocation of the Hampton Parkway / US Highway 278 intersection to the Island West Park Road site, such change in the design plan is not practical at this time. The realignment of the intersection would increase design and construction cost and extends the timeline to complete the construction of the Island West frontage road. Therefore, unless otherwise directed by Council, the development of the Hampton Parkway / US 278 intersection and the Island West frontage road connector will proceed as planned without any change.

Mrs. Peggy Allard, President of the Friends of Crystal Lake Board of Director, stated one of the main reasons we formed the non-profit status was to be able to seek grants and accept donations to enhance the Park. We continue to work closely with the staff of the County Planning Department and to coordinate the volunteer activities with them. We have had outstanding response from both the Master Gardeners and the Master Naturalists in the entire county. This has galvanized their support to make a significant impact on the progress of the Park. Thank you for your continued support.
